THE EXTRAORDINARY FATALITY OF THE

THURSDAY MARCH 16, 1848.

BY O. F. JACKSON, 97-THAMES ST.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of Letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

HON. HENRY WHEATON.—We announced yesterday the demise of this distinguished man. The Providence Journal of Wednesday contained a brief history of his public career, from which we learn that he was born in that city in November 1785.—He entered Brown University in 1798, and graduated in 1802.—He studied law in the office of Nathaniel Searle, and while a student there, went to France, where he pursued the study of the language a year, and a half; on his return to this country, he was admitted to practice, by the Supreme Court of this State.

In 1812 he removed to New York, and became the editor of *National Advocate*.—In New York he was appointed Judge of the Marine Court, continuing in the practice of his profession as a Chamber Counsellor. He was also elected a member of the Legislature, in which his talents and character gave him commanding influence. He was also a prominent and very influential member of the Constitutional Convention of 1820. In 1815, he was appointed Reporter of the Decisions of the Supreme Court of the United States. He held the appointment till 1827, and published twelve volumes of reports.

In 1827, he was appointed by John Quincy Adams, Charge d'Affaires to Copenhagen. Here he rendered distinguished services and laid the foundation of that reputation as a publicist which has extended to both hemispheres, and which will long preserve his memory. In 1836, he was transferred to Berlin, and, the year after, was raised to the rank of Minister Plenipotentiary. In Prussia, his services were long and eminent. He stood conspicuously at the head of American diplomacy, and was regarded, more than any other man, as the representative of the American government. His duties were by no means confined to the Court to which he was accredited, but extended to every country of Europe, where American interests were to be served or American character to be sustained. His counsel was continually sought by the other American legations, and indeed few matters of high importance between the American Ministers and any of the European Courts were perfected without the benefit of his advice. Mr. Wheaton's reputation was even greater in Europe than at home, for there he was better known and more intimately appreciated. He acquired, in a remarkable degree, the confidence of the sovereigns and ministers with whom he came in contact, and his opinions were standard authority in all matters of public law. Among the men who had enjoyed the best opportunities of becoming acquainted with him, and who entertained the highest opinion of his talents and his character may be mentioned the King of Prussia, the King of the French, Prince Metternich, Baron Humboldt, and M. Guizot.

On his return home, he accepted the Chair of Professor of International Law in Harvard University, and was about to commence upon the duties of the appointment when he was attacked with the illness which resulted in his death.

Mr. Wheaton received the degree of Doctor of Laws at Brown University in 1819, at Hamilton College in 1843, and at Harvard University in 1845. He was a member of the French Institute and of many of the most distinguished societies of learned men in Europe.

Mr. Wheaton's principal works are a treatise upon the Law of Captures, Elements of International Law, Sketch of the Law of Nations from the Peace of Westphalia, an essay on the Right of Search, twelve volumes of Reports and a Digest of the Reports, The Life of William Pinckney, and A History of the Northmen. The latter work was written when he was at Copenhagen. A new edition, greatly enlarged, was nearly ready for the press when he died.

Besides these he was the author of many valuable orations and addresses, which are a rich acquisition to the literature of our

country. He was a great and good man, and his death has created an unexpected void in society.

LATER FROM VENEZUELA.—By the arrival at New York of the brig Orbit, Capt. Anderson, 23 days from Porto Cabello, we are in possession of most exciting intelligence from this Republic.

We learn that the white inhabitants of La Guayra and Caracas are flying in all directions from the vengeance of the black and colored races, who have completely overawed these cities, and have assumed so menacing an attitude towards the whites as to inspire them with a dread of being murdered if they remained.

The party of Monagas, the President and Fourierite leader of the blacks, himself in armed gangs, and impressing all the mixed races or blacks they could find. One colored curman was forcibly dragged from his cart and carried off; and the impression is going on daily.

It was rumored from the interior that the whole of the country was on the eve of a general revolution, and that the celebrated General Paez was making great efforts to rally the whites.

The white population along the sea-coast were trying to escape out of the country. Many of them were going to the Island of Curaco, and taking passage in different United States vessels. Mr. F. Weisman, lady and family, came passengers in the Orbit, being obliged to abandon their beautiful estate, by this dreadful panic.

To the time of the Orbit's sailing, no actual murders had been committed by the blacks, since the assassination of the national representatives.

SANTA FE.—By an arrival at St. Louis, dates have been received from Santa Fe to the 5th of February.

Col. Cook was in command at Santa Fe. The guide was at Taos, and Col. Balls at El Paso.

Gen. Price and staff were about starting for El Paso on their route to Chihuahua. A Court Martial had assembled at Santa Fe. Neither the names of the officers nor the object of the Court is mentioned.

Don Francisco Ruben committed suicide while coming down the river. Insanity is supposed to have been the cause. He had a large amount of money in his keeping.

Col. Cook has been ordered to join his regiment in Mexico.

BRITISH WEST INDIES.—The reduced rates of labor, adopted a few months since through some of the West India Islands, appear to have met with little or no approbation. The greatest discontent prevails, and in many plantations scenes of outrage have been perpetrated. At Grenada, and at Demarara, the laborers have not only struck work, but have proceeded to acts of insubordination and violence which were deemed sufficient to warrant the aid of the military. At Georgetown, on the 21st, considerable excitement prevailed. Several acts of incendiarism had been perpetrated, and a proclamation had been published by the Governor, offering a reward for the conviction of the guilty parties, and counselling the laborers to be orderly, and contented with the proposed reduction of their wages.

THE TREATY.—The New York Express is of opinion, that the prevailing belief, both in that city and in Washington, is, that the Treaty will be ratified, and that in May our army will be on their homeward march, and the greater part of it disbanded. The amendments made by the Senate have been approved of by the President, and the Treaty goes out, at once, to Major General Butler, with suitable instructions. The ratifications will probably be exchanged in Mexico. It is believed that the British agents will look coldly on the Treaty as modified.

Our fellow townsman, Wm. H. Craighton, Esq., has received and accepted an invitation to deliver a Poem before the Union Hall Association, Norwich, Conn., on Friday evening next. We can assure the "Norwichians" that they will be well entertained.

We learn from a friend in Boston, that in consequence of the rush to listen to Mr. Giles' lectures, it has been found necessary to engage the Tremont Temple for the remainder of the course. Masonic Temple was found to be too small to accommodate all who wished to attend.

LATER FROM MEXICO.—N. Orleans dates to the 7th of March have been received. There had been several arrivals from Vera Cruz, the latest in four days. A train left Vera Cruz for Orizaba, commanded by Col. Briscoe, and was attacked by four hundred guerrillas. An express was sent to inform Gen. Twiggs, who detached three companies of cavalry to aid Col. Briscoe. They went to San Diego, but seeing nothing of Briscoe's command, returned to Vera Cruz.

A later arrival states that a desperate fight took place between Briscoe's forces and the guerrillas at Mitigata. Lieut. Henderson and four of the Georgia volunteers were killed. A strong body of cavalry left Vera Cruz February 21st, to clear the road of guerrillas.

The Free American of March 2d says that an express had arrived from the city of Mexico, announcing that an armistice for two months had been agreed upon by Gen. Butler and the Mexican commissioners.

WOMEN'S RIGHTS IN ALABAMA.—An act securing to married women their separate estates has passed both Houses of the Alabama Legislature, and was approved by the Governor on the 1st inst. It provides that the wife's estate shall be held by the husband as in trust. If the wife's estate be equal to her right of dower, on her husband's death, she has no claim whatever to his property, and otherwise only to the difference between her estate and the dower. At the death of his wife, the husband comes into absolute possession of her personal property, and for life of her real estate. The husband and wife are jointly made liable for articles applied for family use.

GREAT PICNIC.—The overcakers and others connected with the Lowell Carpet Mills, intend giving a picnic to the girls employed by that corporation, on the evening of the 20th inst. The festival is to be held in the new two story mill of the Carpet Company, just finished. The building covers an area of nearly an acre, and is the largest room in that city.

NAVAL.—The United States brig Brandywine was at Rio Janeiro, January 29th, to sail for River La Plate. The United States schooner On-ka-hye, off Rio, took barque Laurens of Sag Harbour, supposed to have been engaged in the slave trade, and all her crew, twelve in number, go home in the O. The Captain and cook, with the prize crew were sent home in the Laurens, under charge of Midshipman Renshaw.

A steamboat disaster occurred at Dog-tooth Bend, on the Ohio River, on Tuesday, by a collision between the Yazoo and Swatara. The latter boat immediately sank, and her cargo, a valuable one, will be nearly a total loss. There was an insurance on her to the amount of \$70,000—no lives were lost.

Senator Sevier has been appointed a Special Commissioner to proceed to Mexico to negotiate and finally close the Treaty of Peace. He has been armed with full power to carry out this object, and will leave on Wednesday next for that purpose.

DEATH OF JUDGE SPENCER.—The venerable Ambrose Spencer died at Lyons, New York, on Tuesday. He was the father of John C. Spencer, Secretary of the Navy under Mr. Tyler.

Gen. Sam. Houston, the Texas Senator, lectured at the Tremont Temple, Boston, on Tuesday evening, on the relation of Texas to the Union. He is also to lecture in Norwich, Conn.

Chinese Junk Keying, Capt. Kellett, which sailed from Boston February 14th for London, was seen on the 28th, lat. 42 45, lon. 52 41, going before a northwest gale.

A bill was before the Massachusetts Legislature on the 14th, to extend the time of filling the location of the Providence, Warren and Fall River Railroad.

The appointment of Benjamin Crowell, Esq., as collector of Customs at Providence, has been confirmed by the Senate.

The trial of Dr. Coolidge, for the murder of Mr. Mathews, at Waterville, Me., some time since, commenced on Tuesday.

Mr. Walsh, son of the secretary of Legation at Paris, has received the appointment of secretary to Mr. Sevier.

Mr. Crawford's beautiful statue of the Dying Indian Girl, will be shortly shipped from Rome for New York.

The Cabinet have decided to press the passage of the Ten Regiment Bill.

Thirtieth Congress—First Session.

SYNOPSIS.—14th.—Mr. Dickinson presented the resolutions of the Legislature of New York, in favor of extending the law granting pensions to revolutionary soldiers. The resolutions were ordered to be printed.

A message, nominating Mr. Sevier as commissioner to Mexico, was received from the president, whereupon the Senate went into executive session and confirmed the nomination, after which the doors were again opened.

[Extract of a letter from Dr. Williams of Vt.] Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons. A. Hayden, Esq., of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect. For sale by R. J. TAYLOR.

CAUTION.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as Dr. Williams' Sarsaparilla and Tomato Bitters. Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Bilious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alternative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medicinal qualities of this most valuable root.

One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists. We have now a clear understanding of the different action of aliments, poisons, and medicinal agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth. The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses establish the fact that SAND'S SARSAPARILLA, is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body.

Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet, because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

BEWARE OF SUGAR COATED COUNTERFEITS.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.
